90cm Series 9 Contemporary 5 Burner Dual Fuel Pyrolytic Cooker

Series 9 | Contemporary

Stainless Steel

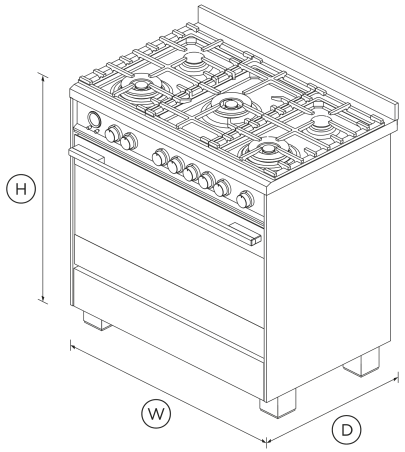

Get the best of both worlds with dual fuel performance. A spacious gas cooktop is paired with a large convection oven with rotisserie.

- Gas cooktop with five burners including wok burners
- Convection oven with 140L capacity and nine oven functions including Pastry Bake with pizza mode, and Rapid Proof
- Non-tip full-extension shelves for safe removal of hot dishes
- Pyrolytic self-clean that breaks down food residue for an easy clean
- Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth

DIMENSIONS

Height	898 - 946 mm
Width	897 mm
Depth	600 mm

FEATURES & BENEFITS

Multi-Shelf Cooking

Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfect as food cooking on the bottom shelf.

Quality And Durability

Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, precise electric temperature control and chromed cast zinc dials all add up to an exceptional, premium freestanding cooker.

Power & Control

Instant and immediate control from the highest to the gentlest heat. The finely tuned hob controls let you sear, stir fry or simmer a delicate sauce to perfection.

Easy Cleaning

Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

Even Heat

Accurate, electronically-controlled oven heat ensures a great result every time.

Large Capacity Oven

The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

SPECIFICATIONS

Accessories (included)

Flat wire shelf	1
Full extension sliding shelves	2 sets (part 578744)
Full extension telescopic shelves	2 sets (part 578744)
Grill rack	TRUE
Roasting dish	1

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
